Screen Replacement

Compass Theater with the Arts Council

Wright Auditorium

Funds from PCF, the Petersburg City School District, and the Petersburg Arts Council were used to purchase a new screen that is safer, operated by an electric motor, and constructed of a newer material that has enhanced reflective capabilities. The additional measure of safety for the screen operation should last well into the next decade.

The screen is used by the student-run Compass Theater, the Petersburg City School District, and many community groups.

Northern Nights Theater
See you at the movies!
